# **SGX Catalyst-Listed Rokko Wins 2009 Supplier Excellence Award From Texas Instruments**

**SINGAPORE, 5 May 2010** – Singapore Exchange Catalyst-listed **Rokko Holdings Ltd.** (“Rokko”) announced today that its wholly-owned subsidiary, Rokko Systems Pte. Ltd. (“Rokko Systems”), has won the 2009 Supplier Excellence Award from Texas Instruments (“TI”), making it the second time Rokko Systems has received the prestigious accolade from the Dallas-based semiconductor giant.

Rokko’s founder and Managing Director, Mr Gary Lim, received the award in the Philippines on behalf of Rokko Systems, which designs and manufactures automated equipment for the semiconductor “back-end” assembly processes.

For the past 27 years, TI has honored businesses that deliver superior service and support through the annual Supplier Excellence Award (SEA) program, a key vehicle for communicating standards and expectations to suppliers of materials, equipment and services.

TI’s Vice President, Worldwide Procurement and Logistics Mr. Rob Simpson said, “TI is very focused on supplier integrity and reliability, and this award is our highest level of supplier recognition”.

“Rokko Systems has excelled in a rigorous process not once but twice within the last three years – demonstrating its commitment to delivering reliable technology on time and at the lowest cost of ownership to clients such as TI,” he said.

“This award – the second that Rokko Systems has won from TI – is a huge honor that underscores the commitment and dedication which Rokko places on valued customers. On behalf of the entire Rokko team, I would like to express our deepest appreciation to TI for its continued support, confidence and trust in us,” said Mr. Gary Lim.
